The State University of New York
Institute of Applied Arts and Sciences
Binghamton, New York

FOREWORD

Hands have played an important role in the duties and activities of our school, particularly during this year. On the morning of September 3, 1951, The Hand of Fate destroyed everything but our spirit. Helping hands provided new quarters for State Tech. Skilled or unskilled, all busy hands started us on our way to recovery. Hands of authority sent letters and pleas for aid in our return to what we once were; hands have worked long and hard to clean, rebuild and restore equipment; hands have applauded the spirit and fight of State Tech. It has taken much time and many hands, but we have rapidly regrown. The hand of destiny has yet to enter our midst to determine the future of our school. May this hand be good to us.

The 1952 Citadel hopes to depict the work that some of these vital hands have done. Through words and pictures The Citadel endeavors to show you the role hands have played in our recovery.

DAUSE L. BIBBY

After the fire, many tasks which we students never knew about were performed by our very competent Board of Trustees. Their hands wrote necessary letters, completed unending numbers of reports, and did the million and one jobs necessary to speed rebuilding plans.

At the beginning of the year, it was a familiar sight to see our Director lunching with four or five of the Trustees in very businesslike conversation. As one passed through the cafeteria, he might have overheard plans for the future to make us students more comfortable. Yet, we students have expressed no outward appreciation of their endless efforts.

Therefore, it is with great pleasure that we of the Class of 1952 pay tribute to these thoughtful, hard-working hands by dedicating to them this year's Citadel. We fully appreciate all that they have done in helping us attain the status at which we are now.

IN MEMORIAM

MR. DAVID E. MEADE

The hand of fate not only destroyed our fine building, but also, in the same college year, took from us our Registrar, Mr. David E. Meade. This loss struck the heart of everyone.

Mr. Meade had been Registrar of the Institute since it was opened in 1946. During his time at State Tech, he inspired in others friendship and confidence. It would be impossible to state the number of students he has helped in solving personal problems. These students, though unknown to us, will always remember him and appreciate what he has done.

We, the student body, shall also always remember, love and respect this kind man for his devotion to State Tech.

OUTSTANDING

GET-
ACQUAINTED
DANCE

THE "MIKADO"

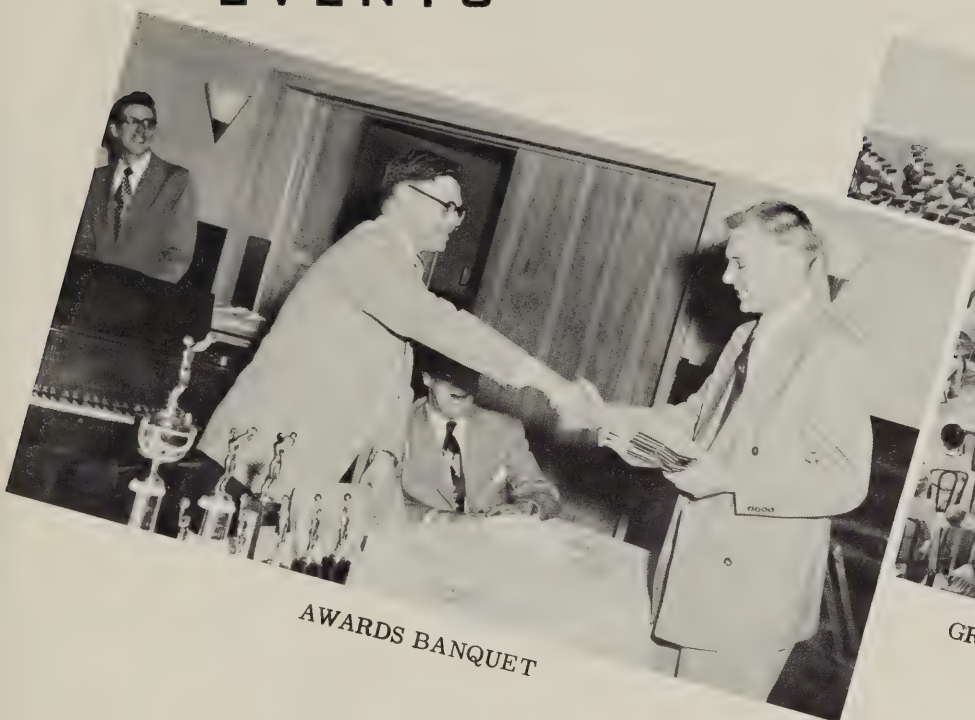

QUEEN OF HEARTS BALL

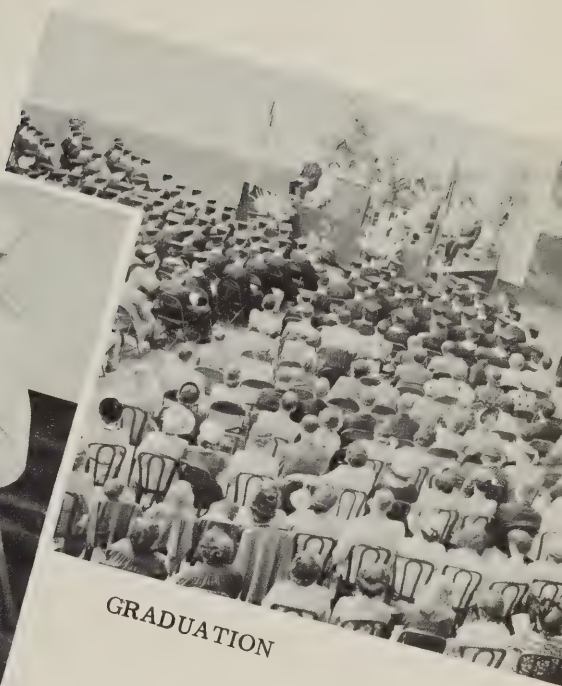

Without a doubt, the disheartening fire of September 3, was the most outstanding event of our two-year stay within the walls of State Tech. Almost immediately, a search for new housing facilities was begun and new equipment, machinery and lockers were purchased. While the wheels of rehabilitation were turning, plans were being formulated for the construction of a permanent campus somewhere in the outskirts of the Triple Cities, but until the campus actually went into the stages of construction, we had to get along with what was salvaged from the fire and reconditioned, with what was untouched by the fire, and with what was purchased. Happily, we found that the new equipment, in some cases, was better than the old. A new building, the Rider building, was acquired and the Electrical and Chemical labs were set up. Our sister institute at Brooklyn came through with a welcome donation of \$500, plus desks and chairs. Other schools which made our job easier were Harpur College, Morrisville A and T, and Utica Tech.

An unusually large number of events happened for the first time in the history of our still-young Institution. A Student-Faculty Corporation was formed for the purpose of incorporating student wishes into official matters concerning the student body. An operetta, *The Mikado*,

EVENTS

AWARDS BANQUET

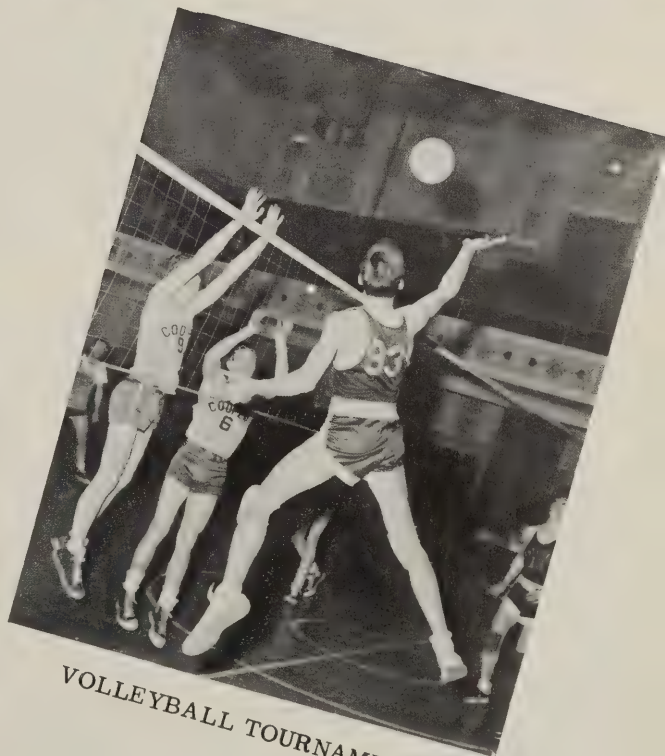

GRADUATION

was sponsored by the Student Council. The initial Awards Dinner was held during which athletic and extra-curricular awards were presented. Mr. Tyrrell's premier as a singer on TV; intramural benefit games to raise money for the new Varsity Volleyball squad; a movie, "Ruggles of Red Gap," as a convocation program; and the Music Appreciation Club were other firsts.

As far as Outstanding Events which were repeat performances go, we find 80 pints of blood were given to the Broome County Blood Bank; Mother's Day Tea; Parent's Day; the usual Get Acquainted Dance, St. Patrick's Day Dance, Spring Formal; Queen of Hearts Ball and Senior Dinner Dance; picnics; Boy and Girl Scouts as our guests at the basketball games; the appearance of former graduates dressed in uniform; and the usual run of engagements and marriages.

A blot on our otherwise happy days at State Tech was the untimely and unfortunate death of our registrar and friend, Mr. David Meade.

Graduation was the last Outstanding Event of our two-year stay. To quote a time-worn cliché; it is the last, but by no means the least. Accompanied by the usual pomp and ceremony, we took leave of the surroundings which had been such a major part of our lives. Never will we forget.

CLASS OF 1953

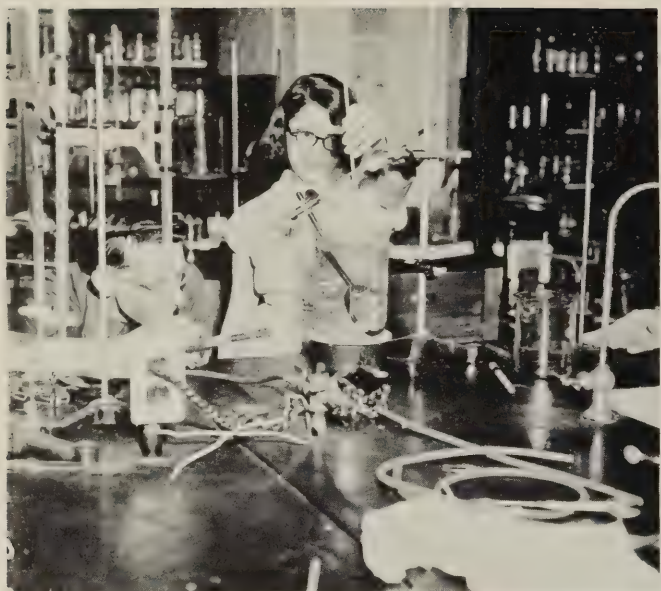

Chems of '52 have made a name for themselves in various ways....two Student Council presidents....a vice-president, editor of Tech Talk....members of social and athletic committee....material for J.V. basketball, bowling team and wrestling team....baseball team owes much to the Chems....two pitchers, one catcher, first baseman.

Too bad the Chem lab was lost in the fire....eliminated one course, delayed others....both instructors and students showed outstanding ability as carpenters, electricians, moving men and cleaning women....these temporary labs were small but adequate....delay caused much easier assignments, less homework, greater freedom in class....

A familiar sight any afternoon....a large representation of the class gathered around a deck of cards....yes, the instructors, too!....great game that pinochle.

Contrary to opinions....Chems are not mad chemists....do not create explosions and concoctions of various kinds....no major accidents....few minor mishaps....never can tell what's gonna happen when you mix a couple of substances....but that's what makes their classes enjoyable and exciting.

CLASS OF 1953

Machinery....lab reports....slide rules....dirty coveralls.... these helped to identify the "mechanical wrecks from old State Tech"....so their song calls them....They were eager to see the world and therefore took several field trips to local industries....as well as one to Buffalo....They appreciated the fine things of life too....their song indicated the love of music....the pictures in some of their lockers showed their art appreciation....This Mechanical class was one of the most athletic classes ...3 out of 5 of the Varsity and J.V. basketball managers were of this proud group....they contributed the captains for Varsity basketball and....Varsity baseball....the baseball manager was their classmate....4/5 of Tech's Varsity bowling team were Mechanicalsboth years, they had good intramural basketball and volleyball teams.... and they participated in the big tournament held at school....the wrestling team was not ignored either....but they could write well too, and they did.... for Citadel and Tech Talk....This is one of our peppy, spirited class of boysthe Mechanicals.

CLASS OF 1953

The men with the greasy coveralls....always a happy smile, a jovial greeting....these are the Automotives....an important group at State Tech.

Spend most of their time in the Automotive Lab....but always active in school functions....basketball....wrestling....baseball....bowling....volleyball.... all have been proud of the Automotives who have taken an active part....clubs and committees too, have found their active participation....student council vice-president and treasurer....varsity club president....social and awards committees....camera club....a delightful sight, their school spirit....particularly shown at basketball games....cheered more than the rest of the student body....one big gang....their motto--All for one and one for all!

In May, they spent a week in Detroit....touring....observing....learning (so they say)....and enjoying themselves in general....were missed at State Tech.... Ah! What tales we did hear of that escapade!

What will these men be doing upon graduation?....undoubtedly, many will be serving Uncle Sam....but whatever it may be, we know they will do it well.... Yea Automotives!

CLASS OF 1953

1st Row: A. Kelly, M. Lokken, S. Leonhart, E. Gooden, P. Rood, S. Anderson, P. Knapp, J. Bailey. 2nd Row: M. Gillen, B. Kelm, M. Humphrey, R. Gilday, P. Crane, P. Baird, D. Yetter, M. Osborne, N. Gardner, A. Hinrichsen.

These are the girls who wear the white lab coats....carry needles in their hands....and look at everyone as though they were victims....with that blood-thirsty look in their eyes....They put down their weapons long enough to get acquainted....and to participate in extra-curricular clubs....The Citadel got a helping hand from the M.O.'s....as did Tech Talk....they succeeded in getting a few thousand words on the affairs of the Student Council....one member wrote well enough to be elected Secretary of the Senior class....But they had beauty as well as brains....Queen De Crescente reigned at the ball....while three others made up part of her court....They were fairly healthy girls....Result:....girls' intramural sports....with the T.O. girls....At the beginning of their second year, their hands were the "hands you wish were soft"....they spent many hours cleaning the lab equipment that luckily was saved in the fire....Then they got down to business....and used the "swords"....some of the girls were younger than others, some older....some single, engaged....or married....a happy, lively class of girls,....the M.O.'s.

Outstanding group, these T.O.'s....have attained good scholastic standingsmany of them outstanding in extra-curricular activities....co-chairman of social committee....chairman of awards committee....two top basketball players....president of Newman Club....active members in intramural volleyball and basketball....girls, too, showed athletic ability in basketball and volleyball....several boys are members of varsity club....contributed a great deal toward Tech Talk and Citadel....Secretary of Student Council....Glee Club brightened by one particular T.O. voice....

Class consists of 13 attractive women and 9 good-looking men....among these, several pinochle champs....all in all, a great bunch.

*N.Y.S. Institute Tournament

BASKETBALL

The Binghamton State Tech Basketball Team finished a successful 1951-1952 season with a trip to the New York State Institute Tournament at Farmingdale, Long Island. The season could have ended on a completely happy note, had not the Long Island team chosen to rally in the final minutes of the game which decided the N.Y.S. Institute championship. As it was the host team garnered a 76-73 victory at the expense of the Hornets.

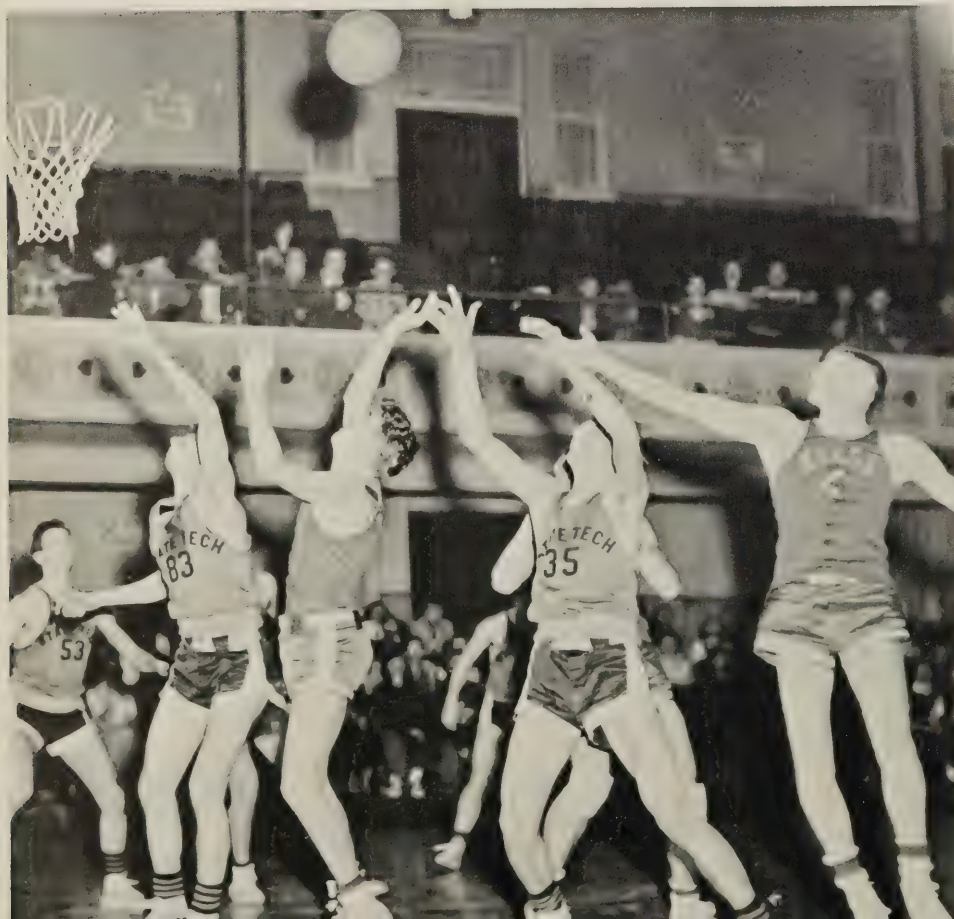

However, the second-place trophy which Captain Jerry Fuller accepted plus the second-place standing gained in regular league competition are indications of a very successful season. True, not as successful as former State Tech teams with their 22-2, 24-2 and 28-4 records, but then those teams were older and more experienced than this season's outfit which compiled an overall record of 17 victories and 7 defeats.

Hampered from the very beginning by poor lighting over a court which, by comparison with the one in the now "vacated" building, is slightly shrunken and also by the fact that the court could not be used for a couple of vital pre-season weeks because of previously scheduled series of meetings, Coach Dick Baldwin performed wonders and contradicted pre-season doubters by producing a winning combination: one which almost retained its Institute Championship and one which was not sent to defend its Region XV crown for financial reasons.

The Hornets played a good, although erratic brand of ball, from the opening season basket by Pete Hatala in the Alumni game until the final two-pointer by Chuck Borsavage in the Farmingdale contest. Other highlights of the up-and-down season were Joe Daszewski's 34 points against Utica Tech which broke the State Tech individual record, the stopping of the Hornet's monopoly over Empire State Conference competition by Cobleskill after 39 consecutive wins, the terrific upset over a tall and experienced Roberts Wesleyan Quintet and the "Hundredth Victory Celebration" against Delhi.

Much credit is due Coach Dick Baldwin for his masterful molding job which produced a fine team and also to the boys who practiced long hours to achieve the polish and perfection which is typical of State Tech Teams. Congratulations must be extended to Paul Guley and Pete Hatala, who, as a result of their steady ball playing were elected 1952-1953 co-captains.

VARSITY BASEBALL

1st Row: J. Pavlik, P. Hatala, J. Armstrong, B. Slater, J. Husnay, M. Cianciosi, D. Andrus, D. Champoux. 2nd Row: Mr. McVean, J. Rothwell, E. White, R. Vosburgh, J. Lowery, W. VanKuren, P. Norton, H. Gopoiian.

Coach Jim McVean, in his freshman year as head coach, found himself with a predominately freshman team, with only Jerry Rothwell behind the stick, Burt Slater at first, Jerry Fuller at second, and John Pavlik at short or third, left over from the 1951 outfit.

The team started out on the right foot by squeaking past the alumni 3-2. Jack Lowery went the distance for the win. In the second game, Don Andrus came on in relief to save the game as the hitters opened up and pounded out twelve hits to roll Keystone Junior College 15-8. The hitters were stilled in the third game as inability to hit in the clutches was the major reason Utica Tech took home a 6-0 victory, Page Norton pitched five-hit ball, but took the loss.

In their first game on the road, the Hornets dropped a close one to Delhi 2-1. Denny Champoux started for the Techmen, but was lifted in the second inning in favor of Lowery who went on to pitch hitless ball until the seventh when Delhi scored the winning tally. The Men of McVean scored their only run on a couple of walks and an error. Pete Hatala's blast through the box was the only marker in the hit column.

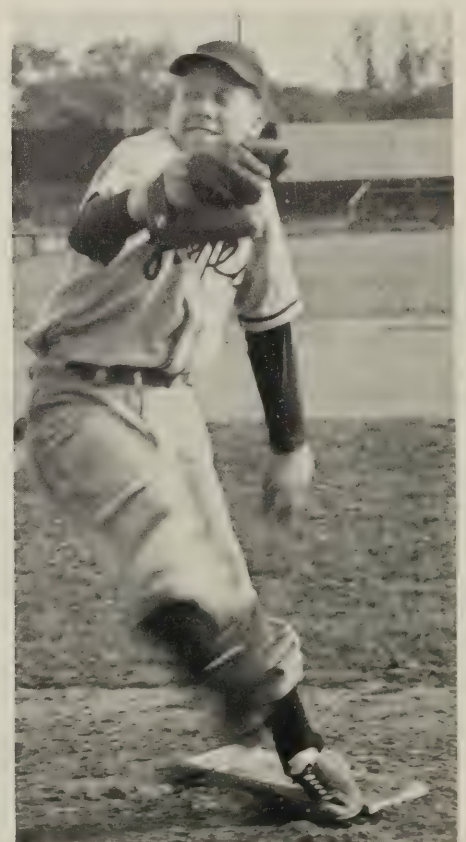

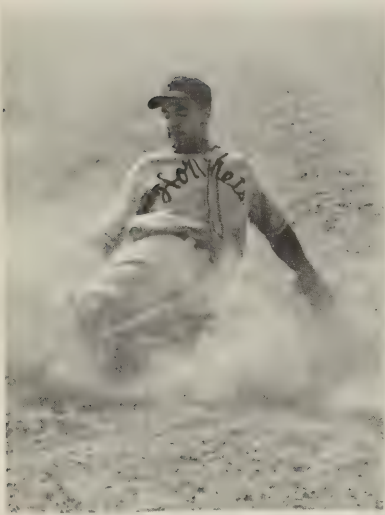

Fireman Don Andrus received credit for the next two wins: one a 7-6 affair against Delhi in which Jerry Rothwell squeezed home the winning run in the bottom of the seventh frame; and the other, an 11-7 riot down at Keystone in which fists were flying nearly as much as the baseballs. Sandwiched in between these winning efforts was a loss at home to Morrisville. Jack Lowery pitched fine ball in a losing effort, but the Morrisville hurler was a bit more effective and received better support.

Journeying northward, the Hornets reversed an earlier defeat by humbling the Utica Techers to the tune of 12 to 3. Jack Lowery went the distance on the mound for the Techmen as Johnny Pavlik lashed out a triple and two singles and drew a brace of walks to turn in a perfect day at the plate. Burt Slater, Pete Hatala, and Mario Cianciosi each chipped in with a pair of hits as the Hornets sprayed eleven hits over the landscape while Lowery effectively spaced seven Utica safeties.

Morrisville made it two in a row as they pounded out an 8 to 5 verdict over a makeshift State Tech aggregation which had only to make one more substitution before the manager and scorekeeper saw action. Page Norton started on the hill but was replaced in the first by Lowery who went on to absorb the defeat. The only consolation for the Hornets was the fact that they blasted the Morrisville pitcher out of the box in the first inning. Doubly sweet was the fact that he was the same moundsman who had held them to two hits in the earlier game. Jerry Rothwell led the batters with three hits, including a triple.

The last outing of the season proved an unhappy one as the alumni team, strengthened by former Hornet standouts Bobby Ross and Len Laskowski, ground out a 4-2 victory over the varsity. Don Andrus started on the hill for the students, but was relieved in the 3rd in favor of Jack Lowery. Andrus took the loss while John Husnay pounded out three hits in the losers cause.

Husnay, incidentally, as a fitting reward for this consistent hitting and his steady center fielding was elected captain by his teammates for the 1953 season.

VARSITY VOLLEYBALL

1st Row: D. Avery, W. Klimash, J. Armstrong, R. Wright, R. Garrison, J. Menzel. 2nd Row: Mr. Greenwood, D. Johnson, J. DeSoto, C. Roberts, J. Lowery, R. Dyer, G. Knapp.

The latest sport to "Catch On" and be recognized as varsity competition at State Tech is Volleyball. In its second year of organization, the team has come up against some of the toughest teams in the East, the Eastern Champion Springfield team being one of them. Not only has the team gained valuable experience in playing these teams, but it has shown to the student body that the game of Volleyball can be a contest requiring the utmost skill, timing and sometimes endurance, as in the case of the college tournament held on the State Tech court. It also has provided the school with badly needed publicity during the slack season between the basketball and baseball seasons.

As a result of the endless labors of coach Roy Greenwood, the team was able, not only to host the First Annual State Tech Volleyball Tournament but was also able to raise enough money, through a combination Dance-Amateur show, to go the Eastern college tournament at Springfield, Massachusetts.

Congratulations are in order for this newest of State Tech athletic units and good luck in future seasons.

WRESTLING

1st Row: R. Zimmerman, R. Stevens, W. Bradford, K. Hill, D. Andrus, Mr. Latham. 2nd Row: Mr. Black, W. VanKuren, D. Avery, T. O'Buckley, C. Peake, F. Brown.

The Varsity Wrestling Team, starting and finishing its season with wins, unfortunately came out of the competition with a losing record by sandwiching four defeats between the victories.

Plagued by lack of facilities and equipment, by an auto accident and a wrestling injury which claimed two key men, and by a grades disqualification which dropped another from the squad, coaches Tom Latham and Tom Black found their work cut out for them.

Next year, in their third active year of intercollegiate competition, the wrestling team hopes to add the Manlius Cadets and the Morrisville Aggies to the schedule.
